The problem we identified

PGA
Passion for growth

Problem : We are trying to solve a problem of having organizations diverting their attention into tax, payroll, auditing and accounting issues instead of concentrating on their core business.

NPOs

- NPOs such as associations(eg SABPP, Accountancy bodies), schools, hospitals, charities and trade unions are run not to make profits but to benefit prescribed groups of people. E.g: The primary objective of a charity is to pursue whatever charitable objectives it was set up for.
- Since the services provided are limited primarily by the funds available, secondary objectives are to raise the maximum possible funds each year (net of fund-raising expenses), and to use the funds efficiently to maximize the benefit generated.
- This can be measured as the value for-money(VFM) generated.
